

PROGRAM QUALIFYING QUESTIONS

a. Do you disturb in any way any material that may have asbestos? Page	1		Asbestos	Answers	
a. Do you have the potential to occupationally come in contact with human blood, sirenal spinal fluid, plural fluid, paral cardial fluid, synovial fluid, semen, vaginal fluid, or unfixed tissues? Electrical Safety a. Do you operate any machines that run on electricity for work? b. Do you work with bare electrical wires at any time at work? c. Would you ever use flexible cords, extension cord, or light strings for work? d. Does your job involve repairing devices, machines, or appliances that use electricity? v. N. e. Does your job involve using electrical breaker boxes? f. Do any of your duties for work have you work with or around an excess of 220 volts? v. N. e. Ergonomics a. Do you have any employees doing repetitive motions? Fall Protection a. Does work require you to ever be at a height of four feet or more even once? V. N. hearing Conservation a. Are you working with a hazardous material? (hazardous chemicals) V. N. Hearing Conservation a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? V. N. Personal Protective Equipment a. Do you work around a hazard that requires PPE? b. Do you require hand, foot, eye, electrical, or head protection? Y. N. Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? b. Do any of your job duties ever require you to use any type of scaffolding? V. N. Ladder and Scaffold Safety a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? Machine Guarding a. Does work ever require you to only with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other		a.	Do you disturb in any way any material that may have asbestos?	Y	N
sirenal spinal fluid, plural fluid, paral cardial fluid, synovial fluid, semen, vaginal fluid, or unfixed tissues? Bectrical Safety	2		Bloodborne Pathogens		
### Fluid, or unfixed tissues? Solution Electrical Safety Solution		a.			
a. Do you operate any machines that run on electricity for work? b. Do you work with bare electrical wires at any time at work? c. Would you ever use flexible cords, extension cord, or light strings for work? d. Does your job involve repairing devices, machines, or appliances that use electricity? Y N e. Does your job involve using electrical breaker boxes? f. Do any of your duties for work have you work with or around an excess of 220 volts? Y N e. Does work require you to ever be at a height of four feet or more even once? Y N f. Brail Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hazard Communication a. Are you working with a hazardous material? (hazardous chemicals) Y N Hearing Conservation a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Y N Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N b. Do any of your job duties ever require you to use any type of scaffolding? Y N Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? Machine Cuarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other				Y	N
a. Do you operate any machines that run on electricity for work? b. Do you work with bare electrical wires at any time at work? c. Would you ever use flexible cords, extension cord, or light strings for work? d. Does your job involve repairing devices, machines, or appliances that use electricity? Y N e. Does your job involve using electrical breaker boxes? f. Do any of your duties for work have you work with or around an excess of 220 volts? Y N Ergonomics a. Do you have any employees doing repetitive motions? Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hearing Conservation a. Are you working with a hazardous material? (hazardous chemicals) Y N Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N b. Do any of your job duties ever require you to use any type of scaffolding? Y N Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other	7		•		
b. Do you work with bare electrical wires at any time at work? c. Would you ever use flexible cords, extension cord, or light strings for work? d. Does your job involve repairing devices, machines, or appliances that use electricity? e. Does your job involve using electrical breaker boxes? f. Do any of your duties for work have you work with or around an excess of 220 volts? 4 Ergonomics a. Do you have any employees doing repetitive motions? Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Fall Protection a. Are you working with a hazardous material? (hazardous chemicals) 7 Hearing Conservation a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Are you work around a hazard that requires PPE? b. Do you require hand, foot, eye, electrical, or head protection? 9 Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? b. Do any of your job duties ever require you to use any type of scaffolding? 10 Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? 10 Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other Y N		a	· ·	V	N
c. Would you ever use flexible cords, extension cord, or light strings for work? d. Does your job involve repairing devices, machines, or appliances that use electricity? Y N e. Does your job involve using electrical breaker boxes? f. Do any of your duties for work have you work with or around an excess of 220 volts? Y N Ergonomics a. Do you have any employees doing repetitive motions? Y N Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hearing Communication a. Are you working with a hazardous material? (hazardous chemicals) Y N Personal Protective Equipment a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Y N Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N b. Do any of your job duties ever require you to use any type of scaffolding? Y N Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? 10 Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other Y N			,		
d. Does your job involve repairing devices, machines, or appliances that use electricity? Y N e. Does your job involve using electrical breaker boxes? Y N f. Do any of your duties for work have you work with or around an excess of 220 volts? Y N Figonomics a. Do you have any employees doing repetitive motions? Y N Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hearing Conservation a. Are you working with a hazardous material? (hazardous chemicals) Y N Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N b. Do any of your job duties ever require you to use any type of scaffolding? Y N Lockout/Tagout Training a. Does work require you maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other Y N					
e. Does your job involve using electrical breaker boxes? f. Do any of your duties for work have you work with or around an excess of 220 volts? Y N Ergonomics a. Do you have any employees doing repetitive motions? Y N Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hearing Communication a. Are you working with a hazardous material? (hazardous chemicals) Y N Personal Protective Equipment a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Y N Do you work around a hazard that requires PPE? Do you require hand, foot, eye, electrical, or head protection? Y N Do any of your job duties ever require you to use any type of ladder? Y N Do any of your job duties ever require you to use any type of scaffolding? Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? In Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other Y N					
f. Do any of your duties for work have you work with or around an excess of 220 volts? Y N Fignomics a. Do you have any employees doing repetitive motions? Y N Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hazard Communication a. Are you working with a hazardous material? (hazardous chemicals) Y N Hearing Conservation a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Y N Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N b. Do any of your job duties ever require you to use any type of scaffolding? Y N Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other Y N			7 7 2 2		
4 Ergonomics a. Do you have any employees doing repetitive motions? Y N 5 Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N 6 Hazard Communication a. Are you working with a hazardous material? (hazardous chemicals) Y N 7 Hearing Conservation a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Y N 8 Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N 9 Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N b. Do any of your job duties ever require you to use any type of scaffolding? Y N 10 Lockout/Tagout Training a. Does work require you to maintain or repair machines or equipment where the unexpected startup, energization, or the release of stored energy could cause bodily injury? b. Does work ever require you to physically be around or in the line of fire of a machine that is being repaired or maintained where the unexpected startup, energization, or the release of stored energy could cause bodily injury? 11 Machine Guarding a. Does work ever require you to work with or around a machine with spinning, turning, rotating, oscillating, vibrating, cutting, chopping, mixing, or any other					
a. Do you have any employees doing repetitive motions? Fall Protection a. Does work require you to ever be at a height of four feet or more even once? Y N Hazard Communication a. Are you working with a hazardous material? (hazardous chemicals) Y N Hearing Conservation a. Are you exposed to a noise level of 85 db. Over an 8-hour timeframe or equivalent? Y N Personal Protective Equipment a. Do you work around a hazard that requires PPE? Y N b. Do you require hand, foot, eye, electrical, or head protection? Y N Ladder and Scaffold Safety a. Do any of your job duties ever require you to use any type of ladder? Y N Do any of your job duties ever require you to use any type of scaffolding? Y N Lockout/Tagout Training a. PROGRAM QUALIFYING QUESTIONS

12	CMV Program		
	a. Do you have any vehicles that weigh 10,001 or greater?	Y	N
1	o. Do you have any vans that carry 15 or more passengers?	Y	N
(c. Do you have any vans that carry 9 or more passengers?	Y	N
	d. Do you have any vehicles that carry hazardous material in excess of 100 lbs?	Y	N
13	Confined Spaces		
	a. Are you working in a space that you can fit your whole body?	Y	N
1	o. Are you working in a space that is not designed for continuous use?	Y	N
	c. Are you working in a space that has limited access or egress?	Y	N
	d. Are you working in a space that has a potentially hazardous atmosphere?	Y	N
	e. Are you working in a space that has the potential for engulfment?	Y	N
14	Crane Safety		
	a. Does work require you to operate any time of crane or hoist?	Y	N
1	Does work require you to perform rigging or support operations for crane work?	Y	N
	c. Does work require you to travel through an area where a crane is being operated?	Y	N
15	Excavation		
;	a. Does work require you to participate in the creation of an excavation of any size?	Y	N
]	Does work require you to work in or around an excavation of any size?	Y	N
	c. Does work require you to travel (walk/drive) past an excavation of any size?	Y	N
16	Forklift Safety		
	a. Does work require you to drive or operate any type of forklift?	Y	N
]	Does work require you to provide any type of assistance to someone operating any type of forklift? (i.e. spotting, rigging, loading, unloading directing, etc.)	Y	N
(c. Does work require you to work in an area that has forklift traffic at any time?	Y	N
17	Laboratory Safety		
	a. Are you engaged in the laboratory use of hazardous chemicals?	Y	N
18	Mobile Elevated Work Platforms (MEWP)		
	a. Does work require you to drive, operate, or be a passenger in any type of MEWP?	Y	N
1	Does work require you to work in an area where there is MEWP traffic of any kind?	Y	N
19	Radiation Safety		
	a. Do you use machines or materials that produce or emit ionizing radiation?	Y	N
20	Respiratory Protection		
	a. Are you working in an oxygen-rich or deficient environment?	Y	N
1	o. Are you working in a any confined spaces?	Y	N

PROGRAM QUALIFYING QUESTIONS

	C.	Are you exposed to or generation dust, mist, particulate matter, or organic vapors? (Vapor- a substance diffused or suspended in the air, especially one normally liquid or solid)	Y	N
	d.	*	Y	N
	e.	Are you exposed to or generating fumes? (Fumes-particles formed when the material from a volatilized solid condenses in cold air; metal fume fever)	Y	N
	f.	Are you exposed to any other respiratory issues not named above?	Y	N
21		Biological Safety		
·	a.	Are you working with any biological hazards?	Y	N
	b.	Are you working with any recombinant DNA?	Y	N
22		Contractor Safety Orientation		
	a.	Do you hire outside contractors for any work?	Y	N
23		Hot Work		
	a.	Do you do any hot work, meaning welding or cutting or using torches, burners, grinders, or use anything that produces sparks, flames or heat?	Y	N
24		Laser Safety Control of the Control		
	a.	Does you have a laser?	Y	N
	b.	If yes, is the laser class 3B or class 4?	Y	N
	C.	Have you disabled the interlock system on your laser?	Y	N
25		Medical Surveillance		
	a.	Do you work with animals?	Y	N
	b.	Do you work with any hazardous chemicals?	Y	N
26		Reproductive Health
