

WORKPLACE INJURY PROCEDURE – NURSE TRIAGE

All work-related injuries must be reported to the employee's supervisor immediately regardless of severity. If medical treatment is needed, the follow process must be followed::

Workplace Injury Tips

- **DON'T** call the nurse triage for a medical emergency
- **DON'T** call the nurse triage for a non-work-related injury
- **DO** complete the supervisor report of injury for all injuries
- **DO** use the nurse triage for minor injuries or injuries you are unsure if medical treatment is required

Benefits of Nurse Triage Program

- Available in English and Spanish
- Available 24/7
- Nurses specialized in occupational injuries
- Avoids unnecessary clinic visits and saves employees time
